Blue Cross Blue Shield Value Added Programs

- Blue Health Connection Web Portal
- HealthyBlueXtras / Blue 365
- Online Explanation of Benefits
- Complex Chronic Condition & Disease Management
- Case Management
- Member Secured Services
- Online Provider Directory
- Healthcare Advisor
- Health Media

- Updates: Quit the Nic & 24/7 Nurse Line are no longer available

Blue Health Connection Web Portal

- **Health Dashboard** - A personalized home page populated with information based on your health needs and risks.
- **Health Assessment** - An online comprehensive questionnaire that helps members pinpoint specific health issues and risks, and guides them to healthy habits.

- [Online Health Coach](#) - Online Programs to help you set up Personal Action plans for success.
- [Online Health Information](#) - A wealth of health related topics are available including information about fitness, vitamins and supplements, healthy weight, nutrition, safety and injury prevention.

HealthyBlueXtras / Blue 365

- **HealthyBlueXtras / Blue 365** are savings programs giving BCBSM members special discounts at MI and Nationwide retailers.

Examples: Dunhams, Snap Fitness, Edible Arrangements & Westin Hotels & Resorts

- [Online Explanation of Benefits](#) - Sign up to receive your EOB statements online. Then use these helpful features from any personal computer.
 1. View, save or print your EOBs from the past 24 months
 2. Sort by date, patient, viewed, or not viewed
 3. Receive e-mail reminders when new statements are available online

Complex Chronic Condition & Disease Management

- **Complex Chronic Condition and Disease Management** is a program to help our members better manage Chronic Conditions. A registered nurse case manager will work with members to help them learn skills to enable them to effectively manage their condition.
- **Case Management** is a program that gives access to a dedicated nurse professional that will work with members, families and treating physicians when members are faced with complex health issues.

Member Secured Services

You can:

- Order ID cards
- Check to see how much co-pay and deductible you've used
- Verify coverage for everyone on your contract
- Update Coordination of Benefits information

Online Provider Directory

Locating the right provider is just a click away to find:

- Physicians
- Hospitals
- Ambulatory Surgical Centers
- Urgent Care Centers

Once you've found the right provider, we give you:

- Office location and hours
- Languages spoken
- Participating plans
- Driving directions and maps

Healthcare Advisor

When you need more information about a provider, Healthcare Advisor provides information that can empower you to manage your health and make better health care decisions.

- [PharmaAdvisor](#) - Research and compare drug treatment options and possible drug interactions.
- [Physician Selection Advisor](#) - Select a physician using criteria most important to you.
- [Hospital Advisor](#) - Compare Hospitals including profiles, complications, and post-operative rates.
- [Treatment Cost Advisor](#) - Research the cost of common health care services including overall treatment costs for chronic conditions.

This area is designed for people looking for information tailored to their stage of life.

- Women's Health
- Men's Health
- Children's Health
- Senior's Health

In these channels you will find age-specific and gender-specific articles; general health, fitness and nutrition information; suggested checkups; relevant news items and more.

Wrap-up
