PROPOSAL SUMMARY (Provide a brief summary of the activity):

PROPOSAL DETAILS:

1. How will this activity result in improving operational efficiencies, creating new avenues of instruction, curriculum development, teaching strategies, student development, etc.?

2. What is the impact on the KCC community? (Student learning, work and classroom environment, learning community, etc.)

3. What is your specific plan for assessing the impact in 1 or 2 above?
4. How will you share your experience with the wider College community?
5. How does this activity support the College's Mission and/or Strategic Priorities and Outcomes?
6. How does this activity support the objectives/priorities for your department?
7. How does this activity relate to your existing job responsibilities?
8. How does this activity foster your own professional development?
9. Will undertaking this activity cause you to have to cancel classes or be absent from work? If so, have you discussed this with your department head? What plans have been developed to manage your absence?
10. What will be the cost to implement this program?
11. Other comments in support of your application.

Please return completed application with accompanying materials to the Chair of the Emerging Technologies Group (Kevin Rabineau).
