Independent Auditor's Report

To the Board of Trustees
Kellogg Community College

Report on the Financial Statements

We have audited the accompanying financial statements of Kellogg Community College (the "College") and its discretely presented component unit as of and for the years ended June 30, 2017 and 2016 and the related notes to the financial statements, which collectively comprise Kellogg Community College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the discretely presented component unit were not audited under *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Kellogg Community College and its discretely presented component unit as of June 30, 2017 and 2016 and the respective changes in its financial position and cash flows, where applicable, for the years then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Trustees
Kellogg Community College

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of the College's proportionate share of the net pension liability, and schedule of the College's contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Kellogg Community College's basic financial statements. The other supplementary information, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information, as identified in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information, as identified in the table of contents, is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2017 on our consideration of the Kellogg Community College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kellogg Community College's internal control over financial reporting and compliance.

Kellogg Community College

Management's Discussion and Analysis - Unaudited

The discussion and analysis of Kellogg Community College's (the "College") financial statements provides an overview of the College's financial activities for the years ended June 30, 2017 and 2016. Management has prepared the financial statements and the related note disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the College's administration.

Using this Report

The College's annual financial report includes the report of independent auditors, the management's discussion and analysis, basic financial statements, notes to the financial statements, and supplemental information. The basic financial statements are comprised of three components: the statement of net position, the statement of revenue, expenses, and changes in net position, and the statement of cash flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*.

The Kellogg Community College Foundation (the "Foundation"), a separate nonprofit organization, qualifies as a component unit of the College under GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. Accordingly, the Foundation's financial activity has been discretely presented within the accompanying financial statements.

Change in Accounting Principle

As of June 30, 2015, the College was required to adopt GASB No. 68, which requires governments providing defined benefit pensions through a cost-sharing plan to recognize its portion of any unfunded pension benefit obligation as a liability for the first time, and to more comprehensively measure the annual costs of pension benefits.

As the Michigan Public Schools Employees' Retirement System (MPERS), in which the College is a participating employer, has an unfunded pension liability, the College has reported a change in accounting principle adjustment to unrestricted net position in the amount of \$35.8 million as of July 1, 2014, resulting in an unrestricted net deficit of \$26.9 million and reducing the College's overall net position to \$22.5 million.

Financial Highlights

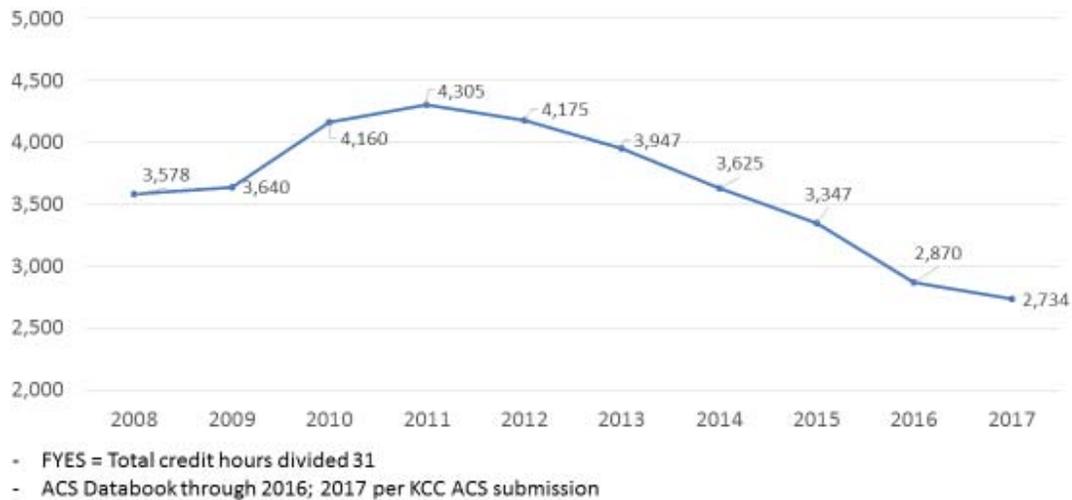

Despite enduring several consecutive years of declining enrollment, the College's financial position increased during the fiscal years ended June 30, 2017, 2016, and 2015. In 2017 and 2016, the College's net position increased \$3 million (11 percent) and \$2.6 million (11 percent), respectively, from the previous year.

The College's enrollment peaked in 2011 at 4,305 fiscal year equated students (FYES - total credit hours divided by 31). In 2017, as enrollment was challenged across Michigan and the nation, the College's FYES fell to 2,734, a decrease of approximately 37 percent since the 2011 peak.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Fiscal Year Equated Students (FYES)

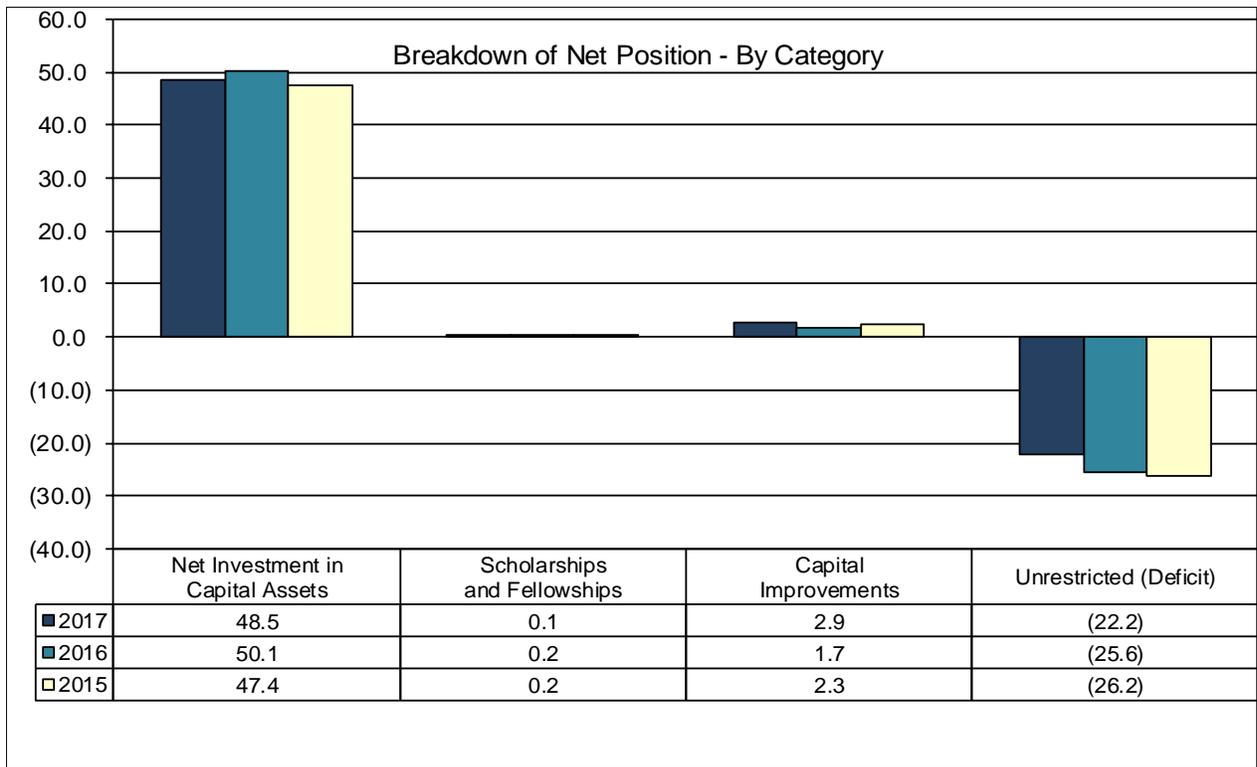

The College believes the decline in enrollment is related to a declining population, an improving economy in which fewer students need training or their skills enhanced, and students reaching the limit on their ability to receive federal financial aid. Federal student financial aid has steadily decreased each of the past four years from approximately \$32.5 million in 2013 to \$15.9 million in 2017, a decrease of 51 percent.

To counter enrollment decreases over the past several years, as well as to keep up with rising operating costs, the College has modestly increased its tuition rates. When FYES decreased 14 percent in 2016, the College's tuition rate increases were not sufficient to offset the drop in credit hours, resulting in decreasing tuition revenue for the first time in several years. However, in 2017, the College was able to counter the continued enrollment decline with tuition rate increases that resulted in approximately \$300,000 more in gross tuition revenue. Also, the College did receive a \$2 million increase in state appropriations in the form of a reimbursement for lost property tax revenue as part of a property tax reform by the State of Michigan, exclusive of state appropriations revenues impacted by GASB 68.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

The following chart provides a graphical breakdown of net position by category for the fiscal years ended June 30, 2017, 2016, and 2015:

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

The Statement of Net Position and the Statement of Revenue, Expenses, and Changes in Net Position

These two statements will help the reader answer the question, "Is Kellogg Community College, as a whole, better or worse off as a result of the year's activities?" The statement of net position and the statement of revenue, expenses, and changes in net position report information on the College as a whole and on its activities in a way that helps answer this question. They report the College's net position and its changes. One can think of net position - the difference between assets and liabilities - as one way to measure the College's financial health or financial position. Many other nonfinancial factors, such as the trend in admission applicants, student retention, condition of the buildings, and strength of the faculty, need to be considered to assess the overall health of the College. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

The following is a comparison of the major components of the statement of net position of the College for the years ended June 30, 2017, 2016, and 2015:

Statement of Net Position at June 30 (in millions)			
	2017	2016	2015
Assets			
Current assets	\$ 22.7	\$ 19.3	\$ 21.9
Restricted cash	7.6	-	-

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Statement of Net Position

The significant changes in the assets and liabilities of the College are as follows:

- In 2017 and 2016, current assets and restricted cash increased (decreased) approximately \$11 million and (\$2.6) million, respectively. The increase in 2017 was primarily the result of selling approximately \$10 million of bonds. The decrease in 2016 resulted from using cash to purchase investments, offset by an increase in accounts receivable related to a large receivable on a state grant.
- In 2017, the College had approximately \$1 million more in long-term investments than in 2016. Additionally, the College's investments in its infrastructure were primarily offset by the depreciation of its existing assets. In 2016, the College continued investing in equipment, building, and capital improvement projects, outpacing depreciation of assets.
- Current liabilities decreased by \$500,000 and \$800,000 in 2017 and 2016, respectively. In 2016, the College completed construction of a couple of projects and paid down its accounts payable by \$900,000, offset by an increase in accrued retirements due to offering a retirement incentive to encourage staff to retire to reduce the institution's long-term expenses. During 2017, the decrease was primarily the result of the College paying the amounts due to employees who accepted the retirement incentive in 2016.
- Long-term liabilities increased by \$8.9 million as the College issued \$10 million in bonds in June 2017 to fund some construction projects. The College also retired \$1 million of its 2014 bond issue. Long-term liabilities increased \$1.9 million in 2016, primarily as a result in the increase of the College's proportionate share of the MPSERS unfunded liability, net of a reduction in bonds payable and reclassifying some long-term retirement obligations as current as a result of the retirement incentive mentioned above.
- Deferred outflows and inflows of resources relate to the MPSERS unfunded net pension liability, with the actuarial determination of its funded status as of September 30, 2016 and 2015 (the "measurement date"), changes in the actuarial assumptions compared to actual results of the plan, and the contributions the College makes into the plan and receives from the State of Michigan after the measurement date.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

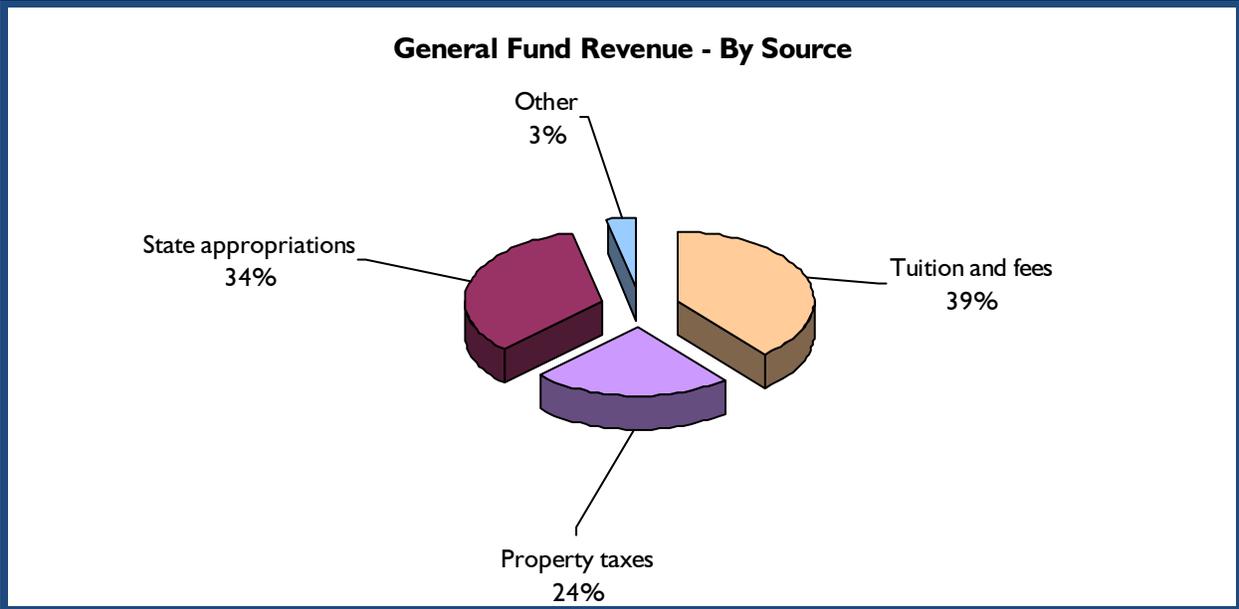

The following is the detail of the major components of operating results of the College for the years ended June 30, 2017, 2016, and 2015:

Operating Results for the Years Ended June 30 (in millions)			
	2017	2016	2015
Operating Revenue			
Tuition and fees - Net	\$ 12.3	\$ 11.8	\$ 12.8
Federal grants and contracts	2.0	2.0	1.8
State grants and contracts	0.5	2.1	0.7
Private gifts, grants, and contracts	2.0	2.0	2.6
Sales and services of auxiliary activities	2.0	2.0	2.5
Other sources	1.1	1.3	1.3
Total operating revenue	19.9	21.2	21.7
Operating Expenses			
Instruction	19.6	20.4	21.6
Public service	1.2	0.8	0.9
Instructional support	6.4	6.1	6.3
Student services	9.4	10.3	12.5
Institutional administration	4.3	4.1	4.2
Physical plant operations	4.0	4.2	4.6
Independent operations	1.8	1.8	1.9
Depreciation	2.4	2.3	2.1

Interest on capital asset - Related debt	(0.3)	(0.2)	(0.2)
Net nonoperating revenue	32.1	29.9	33.6
Other Revenue - Local capital appropriations	0.1	1.5	-
Increase in Net Position	3.0	2.6	1.2
Net Position - Beginning of year	26.3	23.7	58.3
Adjustment for change in accounting principle	-	-	(35.8)
Net Position - Beginning of year, as restated	26.3	23.7	22.5
Net Position - End of year	<u>\$ 29.3</u>	<u>\$ 26.3</u>	<u>\$ 23.7</u>

Kellogg Community College

Management’s Discussion and Analysis - Unaudited (Continued)

Internally, the College accounts for its financial statements using fund accounting, which is then reorganized into operating and nonoperating components for the audited financial statements. The College accounts for its primary programs and operations in its General Fund. The General Fund is primarily financed through four sources of revenue - tuition and fees, state appropriations, property taxes, and other. For this report, these sources of revenue are classified as both operating and nonoperating. The following chart shows the percentage of these sources of revenue as they were reported in the General Fund for the year ended June 30, 2017.

Operating Revenue

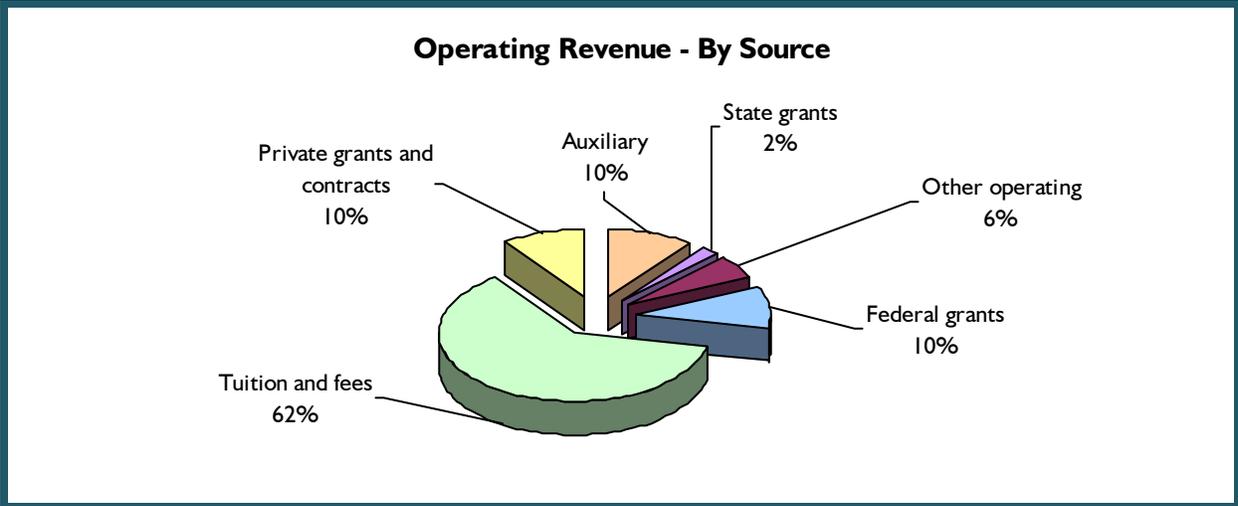

For the College as a whole, operating revenue includes all transactions that result in the sales and/or receipts from goods and services, such as tuition and fees, and other auxiliary operations, such as bookstore sales. In addition, certain federal, state, and private grants are considered operating if they are not for capital purposes and are considered a contract for services.

The College’s operating revenue decreased by \$1.4 million (7 percent) and \$400,000 (2 percent) in 2017 and 2016, respectively. The decrease in 2017 was primarily due to one-time funding from the State of Michigan in 2016 for training equipment and loss of rental revenue of \$300,000, offset by a \$500,000 increase in net tuition and fees. In 2016, the College received \$1.6 million more in state grants, as previously mentioned. These increases were offset by a \$1 million decrease in net tuition and fees, \$600,000 decrease in local grants, and a \$500,000 decrease in net sales in the bookstore.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

The following is a graphic illustration of operating revenue by source, including all funds of the College:

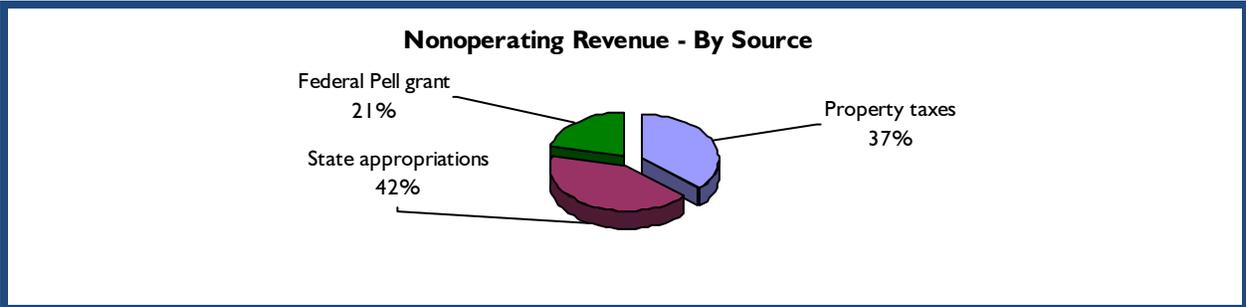

Nonoperating Revenue

Nonoperating revenue is all revenue sources that are primarily nonexchange in nature. They consist primarily of state appropriations, property taxes, federal Pell grant revenue, and investment income. Nonoperating revenue increased \$2.2 million in 2017 and decreased \$3.7 million in 2016.

Due to a number of legislative reforms, the College's state appropriations, which increased \$3.2 million in 2017, comes via several different forms. The state appropriations for College operations increased approximately \$100,000. A reimbursement for lost property tax revenue due to tax reforms was received for the first time at \$2 million and the increase in state appropriations related to the effects of implementing GASB 68 was \$1.1 million. This increase was offset by the loss of personal property tax revenue due to legislative reforms and a \$900,000 reduction in federal Pell grants.

In 2016, nonoperating revenue decreased \$3.7 million, primarily due to a \$2.5 million decrease in federal Pell grants and disposal of assets with \$1.2 million of book value. These decreases were offset by \$400,000 increases in property taxes and \$600,000 in state appropriations (excluding GASB 68 impacts) to the state to help pay down the unfunded MPSERS liability.

The following is a graphic illustration of nonoperating revenue by source:

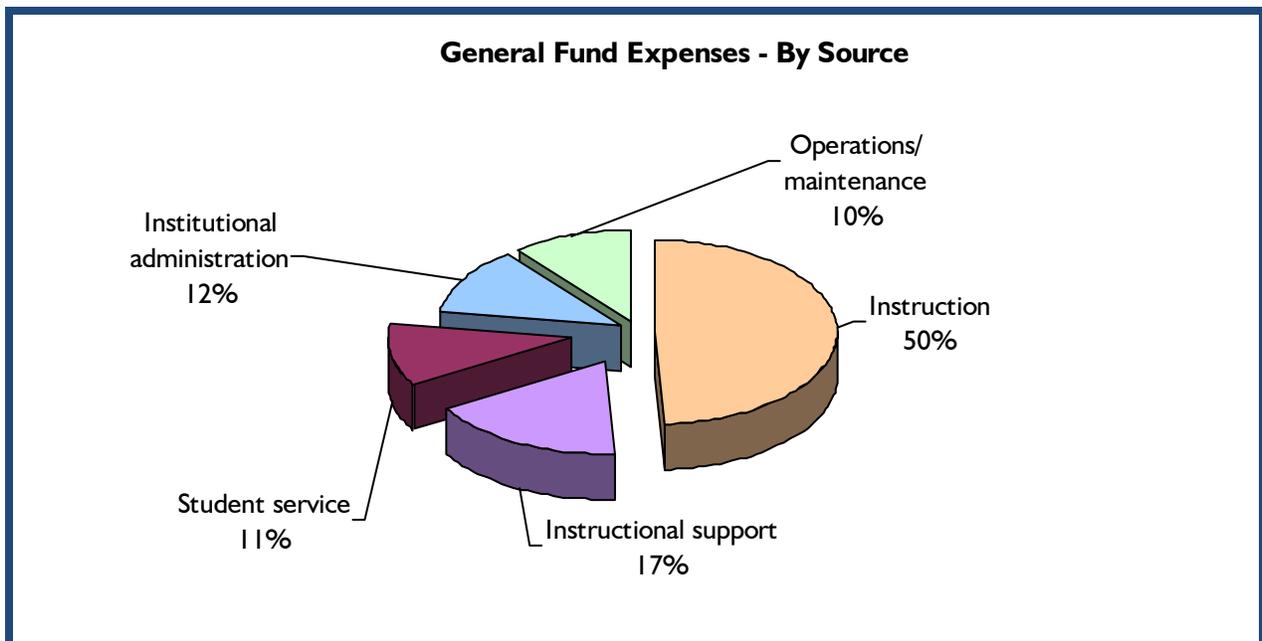

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Operating Expenses

Operating expenses are all the costs necessary to perform and conduct the programs and primary purposes of the College. They include salaries and benefits, utilities, supplies, services, and depreciation and are then categorized by function. Overall, total operating expenses decreased \$900,000 and \$4.1 million in 2017 and 2016, respectively. In 2017, the declining in enrollment led to a \$800,000 decrease in instructional costs, while slight increases in instructional support public service and administration were offset by reductions in student services and facilities costs. Among the reasons for the decrease in 2016 were \$2.7 million reduction in student financial aid (primarily federal Pell grants), \$1.2 million related to adjustments resulting from GASB 68 activity, and a \$700,000 reduction in instructional costs related to the enrollment decrease.

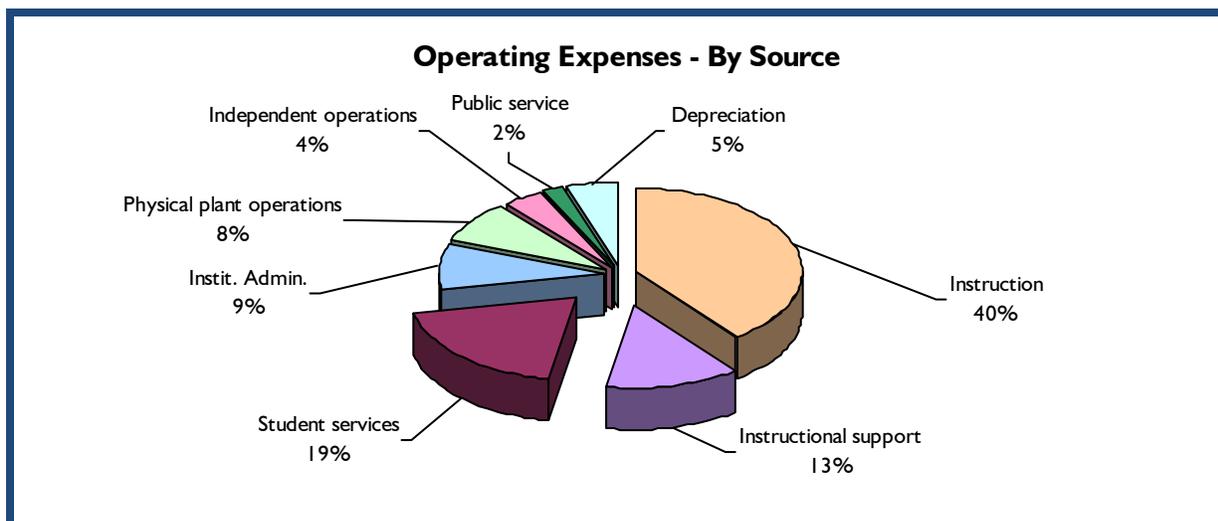

The majority of total expenses are reported internally in the College's General Fund. The College spent approximately 66 and 67 percent of its General Fund expenditures on instruction and instructional support in 2017 and 2016, respectively. The following is a graphic illustration of operating expenses by source as reported by the General Fund for the year ended June 30, 2017:

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

For this financial report, the different funds of the College are netted and internal expenditures are eliminated. The following is a graphic illustration of operating expenses by source for the College as a whole at June 30, 2017:

Other

Other revenue consists of items that are typically nonrecurring, extraordinary, or unusual to the College. Examples would be state capital appropriations, additions to permanent endowments, and transfers from related entities. In 2017, the College received \$79,946 in state capital appropriations. In 2016, the College received a \$1.5 million capital gift from a local governmental agency to help with an addition to one of its facilities. The College had no such revenue in 2015.

Statement of Cash Flows

Another way to assess the financial health of the College is to look at the statement of cash flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The statement of cash flows also helps users assess:

- An entity's ability to generate future net cash flows
- Its ability to meet its obligations as they come due
- Its needs for external financing

Cash Flows for the Years Ended June 30 (in millions)

	2017	2016	2015
Cash (Used in) Provided by			
Operating activities	\$ (25.2)	\$ (27.4)	\$ (29.2)
Noncapital financing activities	30.3	28.5	31.0
Capital and related financing activities	8.0	(2.3)	(6.5)
Investing activities	(1.7)	(2.0)	-
Net Increase (Decrease) in Cash and Cash Equivalents	11.4	(3.2)	(4.7)
Cash and Cash Equivalents - Beginning of year	10.4	13.6	18.3
Cash and Cash Equivalents - End of year	\$ 21.8	\$ 10.4	\$ 13.6

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Major sources of funds from operations came from student tuition and fees, grants and contracts, and auxiliary activities, which includes the bookstore. These sources were offset by expenditures for operations such as payments to employees and suppliers.

Some items of note on the statement of cash flows are as follows:

- The net cash used in operating activities decreased \$2.2 million and \$1.8 million in 2017 and 2016, respectively. In 2017, the decrease was primarily due to increases in cash received from tuition and fees. Increases in cash received from grants and contracts and reductions in expenses were primarily the reason for the decrease in 2016. Overall, the College still utilizes significant cash in its operating activities.
- Cash provided by noncapital financing activities increased \$1.8 million in 2017 and decreased by \$2.5 million in 2016. As stated earlier, large increases in state appropriations due to the loss of property tax revenues drove the increase in 2017. In 2016, the decrease in Pell grants was partially offset by having more property tax and state appropriations.
- Cash provided by (used in) capital and related financing activities approximated \$8 million and \$(2.3) million in 2017 and 2016, respectively. As previously stated, the 2017 bond issue was the primary reason for the increase in that year. And in 2016, the College completed \$5.6 million worth of capital projects, offset by an increase in property taxes restricted for capital projects.

Capital Assets

At June 30, 2017, the College had \$57.7 million invested in capital assets, net of accumulated depreciation of \$42.2 million. Depreciation charges totaled \$2.4 million for the current fiscal year.

Capital Assets at June 30 (in millions)			
	2017	2016	2015
Land and land improvements	\$ 3.5	\$ 3.3	\$ 3.3
Buildings and improvements	78.1	76.9	72.7
Furniture, fixtures, and equipment	16.5	16.5	14.8
Construction in progress	1.8	2.4	4.9
Total	<u>\$ 99.9</u>	<u>\$ 99.1</u>	<u>\$ 95.7</u>

The College is now in its second phase of an expansion, facility improvement, and renovation project called the 21st Century Project. This initiative was funded with a 15-year millage levy approved by voters in 1998 and expired with the 2012 tax year. The voters of the College's district approved a 15-year extension of this millage in November 2012 that will generate an estimated \$40 million through 2028 to help fund further expansion and improvements to the College's facilities.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Debt

During 2017, the College issued the Kellogg Community College Building and Site Bonds, Series 2017 in the amount of \$9.4 million. The outstanding bonds are noted below.

The table below summarizes this amount by type of debt instrument. The College's bond ratings are AA- by the Standard & Poors' Ratings Services.

Debt Outstanding at June 30 (in millions)			
	2017	2016	2015
Bonds, Series 2014	<u>\$ 6.7</u>	<u>\$ 7.7</u>	<u>\$ 8.7</u>
Bonds, Series 2017	<u>\$ 9.4</u>	<u>\$ -</u>	<u>\$ -</u>

Economic Factors That Will Affect the Future

The College's ability to attract students will be its most critical economic factor in the near future. For the first time in several years, the College is reporting enrollment growth in its two most recent semesters. The growth of high school students taking college-level course work has had a dramatic impact on the College's enrollment and tuition revenue and will likely continue to be a positive driver on the bottom line for at least the next several years. Tuition revenue from these students grew 50 percent in 2017 after a 22 percent increase in 2016. Early indications are that trend will continue as revenue for the 2017 fall semester is approximately 40 percent higher than in 2016.

The State of Michigan has modestly increased its operational support of the College and continues to maintain funding to reduce its educational system's retirement liability and reimburse the College for lost property tax revenue due to tax reforms enacted in recent years. All funding mechanisms have been beneficial to the College and will be critical for the future. Property values and related tax revenue, after considering the losses due to legislative reforms, has begun to stabilize after decreasing and remaining stagnant in recent years. We are hopeful for that trend to continue in the upcoming years.

However, even with the increases in support from the state and tuition revenue, the enrollment trends mentioned earlier are causing the College to examine its priorities, programs, and structure to make sure it is aligned for future enrollment levels. In 2016, the College offered a retirement incentive to encourage downsizing through attrition. In 2017, this tactic was employed again as more reductions in enrollment were anticipated. This led to \$1 million in personnel savings in the 2017 budget and further demonstrated the College's ability to quickly respond to emerging trends.

Another asset of the College is the voter-approved capital millage renewal in 2012. The College is fortunate to have a dedicated resource to support funding most of its future infrastructure needs, as well as retire its bonded indebtedness.

Kellogg Community College

Management's Discussion and Analysis - Unaudited (Continued)

Despite declining enrollment and excluding the effects of implementing GASB No. 68, the College had a favorable year financially, balancing its budget and investing in its infrastructure and future. Together, with the College's board, management will continue to monitor enrollment trends, programs, the state and local economies, and react with revenue enhancements and/or further expense containment measures as necessary to ensure that the financial health and stability of the College are preserved.

The Accompanying Notes are an Integral
Part of This Statement.

Note 1 - Industry Information and Significant Accounting Policies

Reporting Entity - Kellogg Community College (the "College") is a Michigan community college whose financial statements have been prepared in accordance with generally accepted accounting principles as applicable to public colleges and universities outlined in Governmental Accounting Standards Board (GASB) Statement No. 35 and the *Manual for Uniform Financial Reporting - Michigan Public Community Colleges, 2001*.

The College reports as a business-type activity, as defined by GASB Statement No. 35. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational or financial relationships with the College. Based on application of the criteria, the financial statements of Kellogg Community College Foundation have been discretely presented in Kellogg Community College's financial statements.

The Kellogg Community College Foundation (the "Foundation"), a nonprofit organization, was formed to solicit, collect, and invest donations made for the promotion of educational activities and capital campaigns at the College. Separate financial statements of the Foundation may be obtained by contacting Kellogg Community College, 450 North Avenue, Battle Creek, MI 49017.

The Foundation is a private nonprofit organization that reports under Financial Accounting Standards Board (FASB) standards. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences. The Internal Revenue Service has determined the Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been recorded.

Significant accounting policies followed by the College are described below to enhance the usefulness of the financial statements to the reader:

Accrual Basis - The financial statements of Kellogg Community College have been prepared on the accrual basis of accounting, whereby revenue is recognized when earned and expenditures are recognized when the related liabilities are incurred and certain measurement and matching criteria are met.

Cash and Cash Equivalents - Cash and cash equivalents consist of all highly liquid investments with an initial maturity of three months or less.

Investments - Investments are recorded at fair value. Level 1 investments are based on quoted market prices and Level 2 investments are recorded using a matrix pricing technique. Matrix pricing is used to value the investments' relationship to benchmark quoted prices.

Note 1 - Industry Information and Significant Accounting Policies (Continued)

Restricted Cash - Restricted cash consists of unspent bond proceeds, which are externally restricted for construction or purchase of capital assets.

Property and Equipment - Property and equipment are recorded at cost. Gifts of property are recorded at fair market value at the time gifts are received. Library books are recorded using a historically based estimated value. Expenditures for maintenance and repairs are expensed as incurred. Depreciation is computed using the straight-line method. No depreciation is recorded on land. Expenditures for major renewals and betterments that extend the useful lives of the assets are capitalized. The following estimated useful lives are used to compute depreciation:

Buildings	40 years
Land improvements and infrastructure	20 years
Furniture, fixtures, and equipment	5-15 years

Unearned Revenue - Revenue received prior to year end that relates to the next fiscal period is recorded as unearned revenue. Unearned revenue consists of approximately \$300,000 and \$438,000 for the 2017 and 2016 summer semesters, respectively, and approximately \$820,000 and \$742,000 for the 2017 and 2016 fall semesters, respectively. The remaining amount included in unearned revenue relates to grant funding received during the year that will either be spent in future years or returned to the granting agencies.

Unrestricted Net Position - Unrestricted net position represents net positions that are not subject to externally imposed constraints. Unrestricted net position may be designated for specific purposes by action of management or the board of trustees.

Net Investment in Capital Assets - Net investment in capital assets represents capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position - Restricted net position represents amounts over which third parties have imposed restrictions that cannot be changed by the board, including amounts that the board has agreed to set aside under contractual agreements with third parties. The restricted balance consists primarily of funds restricted for student loans, scholarships, capital improvements, and other purposes. Generally, the College first applies restricted resources when an expense is incurred for which both restricted and unrestricted resources are available.

Note 1 - Industry Information and Significant Accounting Policies (Continued)

Scholarship Discounts and Allowances - Student tuition and fee revenue and certain other revenue from students are reported net of scholarship discounts and allowances in the statement of revenue, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenue in the College's financial statements. To the extent that revenue from such programs is used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance.

Operating Revenue and Expenses - Revenue and expense transactions are normally classified as operating revenue and expenses when such transactions are generated by the College's principal ongoing operations. However, most revenue that is considered to be nonexchange, such as tax revenue, federal Pell grant revenue, and state appropriations, is nonoperating revenue.

Revenue Recognition of Tuition and Fees - The academic programs are offered in traditional fall and spring semesters. Revenue from tuition and student fees is recognized during the academic term. Revenue from the summer semester, which commences in May and ends in August, is split and recognized proportionally to the number of days of the semester within the fiscal year. Tuition revenue is reported at established rates net of institutional financial aid and discounts provided directly by the College to students.

Grant Revenue - Revenue from grant and contract agreements is recognized as it is earned through expenditure in accordance with the agreement.

Federal Financial Assistance Programs - The College participates in federally funded Pell grants, SEOG grants, Federal Work Study, and Federal Direct Lending programs. Federal programs are audited in accordance with Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

During the years ended June 30, 2017 and 2016, the College distributed \$8,997,897 and \$9,523,918, respectively, for direct lending through the U.S. Department of Education, which is not included as revenue and expenditures on the accompanying financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenses, gains, losses, and other changes in net position during the reporting period. Actual results could differ from those estimates.

Note 1 - Industry Information and Significant Accounting Policies (Continued)

Pensions - For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. MPSERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

Deferred Outflows of Resources - In addition to assets, the statement of Net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then.

Deferred Inflows of Resources - In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. At June 30, 2017 and 2016, the College's deferred inflows of resources related to the net pension liability. See Note 8 for more information. Deferred inflows of resources at June 30, 2017 include \$1,179,223 for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date and \$1,268,367 related to the pension plan described in Note 8. Deferred inflows of resources at June 30, 2016 include \$1,132,143 for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date and \$746,316 related to the pension plan described in Note 8.

Adoption of New Standard - For the year ended June 30, 2017, the College implemented GASB Statement No. 77, *Tax Abatement Disclosures*, which improves disclosure of tax abatement information, such as how the tax abatements affect the College's financial statements, operations, and ability to raise resources in the future, by reporting (1) the College's own tax abatement agreements and (2) those entered into by other governments that reduce the College's tax revenues. See Note 9 regarding the effect of this pronouncement on the College.

Kellogg Community College

Notes to Financial Statements June 30, 2017 and 2016

Note 2 - Property Taxes

Property tax revenue is recognized in the year for which taxes have been levied.

Property taxes are levied on July 1 and December 1 based on taxable values as of the preceding December 31. The taxes, which are collected and remitted to the College by townships within the college district boundaries, are collected through February 28. Uncollected real property taxes of the College are turned over to the counties in which the district is located for subsequent collection. The College is subsequently paid 100 percent of delinquent real property taxes through the counties' tax revolving funds. These payments are usually received within three to five months after the delinquency date.

During the years ended June 30, 2017 and 2016, \$2.8636 of tax per \$1,000 of taxable property value in the College's taxing district was levied for general operating purposes on all property. Total operating property tax revenue was \$9,487,364 and \$10,113,146 for the years ended June 30, 2017 and 2016, respectively.

For capital improvement and debt retirement purposes, \$.7500 per \$1,000 of taxable property value in the College's taxing district was levied for the years ended June 30, 2017 and 2016. Total property tax revenue for the retirement of debt related to the 2014 bond issuances and capital improvement projects was \$2,485,704 and \$2,648,945 for the years ended June 30, 2017 and 2016, respectively.

Note 3 - Cash and Investments

The College considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The College's deposits and investments are included on the statement of net position under the following classifications at June 30, 2017 and 2016:

	<u>2017</u>	<u>2016</u>
Cash and cash equivalents	\$ 14,124,439	\$ 10,422,403
Short-term investments	2,044,049	1,288,664
Restricted cash	7,629,353	-
Long-term investments	<u>4,897,755</u>	<u>3,960,393</u>
Total cash and investments	<u>\$ 28,695,596</u>	<u>\$ 15,671,460</u>

The amounts in the previous chart are classified in the following categories:

	<u>2017</u>	<u>2016</u>
Cash and cash equivalents	\$ 14,117,105	\$ 10,415,269
Investments in securities and similar instruments	6,941,804	5,249,057
Unspent bond proceeds	7,629,353	-
Petty cash and cash on hand	<u>7,334</u>	<u>7,134</u>
Total cash and investments	<u>\$ 28,695,596</u>	<u>\$ 15,671,460</u>

Kellogg Community College

Notes to Financial Statements June 30, 2017 and 2016

Note 3 - Cash and Investments (Continued)

As of June 30, 2017, the College had the following investments and maturities:

	Fair Market Value	Less Than One Year	1-5 Years	6-10 Years	More Than 10 Years
Certificates of deposit	\$ 4,913,044	\$ 1,509,159	\$ 3,403,885	\$ -	\$ -
Notes and bonds	1,993,820	998,660	995,160	-	-
Money market	34,940	34,940	-	-	-
Total	<u>\$ 6,941,804</u>	<u>\$ 2,542,759</u>	<u>\$ 4,399,045</u>	<u>\$ -</u>	<u>\$ -</u>

As of June 30, 2016, the College had the following investments and maturities:

	Fair Market Value	Less Than One Year	1-5 Years	6-10 Years	More Than 10 Years
Certificates of deposit	\$ 3,127,028	\$ 1,169,355	\$ 1,957,673	\$ -	\$ -
Notes and bonds	2,002,720	-	2,002,720	-	-
Money market	119,309	119,309	-	-	-
Total	<u>\$ 5,249,057</u>	<u>\$ 1,288,664</u>	<u>\$ 3,960,393</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk - The College does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The College does invest in accordance with state law.

Credit Risk - According to state law, the College must limit investments in commercial paper to corporations rated prime by at least one of the standard rating services. The Foundation invests in mutual funds with a long-term growth objective.

At June 30, 2017 and 2016, the College's investments (notes and bonds) subject to credit risk (interest rate fluctuations) and related ratings consisted of the following:

	2017		2016	
	Market Value	NRSRO Rating	Market Value	NRSRO Rating
Federal Home Loan Mortgage Corp., 1.05%, 8/10/17	\$ 499,950	Aaa	\$ 500,316	Aaa
Federal Farm Credit Bank, 1.12%, 2/22/19	497,005	Aaa	500,019	Aaa
Federal Farm Credit Bank, 1.00%, 8/23/18	498,155	Aaa	500,235	Aaa
Kent County Bonds, 1.00%, 4/1/18	498,710	Aaa	502,150	Aaa
Total	<u>\$ 1,993,820</u>		<u>\$ 2,002,720</u>	

The nationally recognized statistical rating organization (NRSRO) utilized is primarily Moody's Investors Service.

Kellogg Community College

Notes to Financial Statements June 30, 2017 and 2016

Note 3 - Cash and Investments (Continued)

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be available or returned. The College does not have a deposit policy for custodial credit risk. At June 30, 2017 and 2016, the carrying amount of the College's deposits was \$27,491,573 and \$13,737,993, respectively. Of that amount, \$4,131,795 and \$2,599,358, respectively, was insured by the Federal Deposit Insurance Corporation and National Credit Union Insurance Fund. The remaining \$23,359,598 and \$11,138,634 at June 30, 2017 and 2016, respectively, was uninsured and uncollateralized. The College does not require deposits to be insured or collateralized. It is precluded by state law from collateralizing its deposits.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The College's investment policy does not address custodial credit risk. All of the investments are, however, in the name of the College, and the investments are held in trust accounts with each financial institution from which they were purchased.

More than 5 percent of the College's investments at June 30 were invested as follows:

Issuer	2017	2016
Chemical Bank	7%	5%
JPMorgan	7%	10%
Kellogg Community Federal Credit Union	8%	10%
Marshall Community Credit Union	4%	5%
Omni Community Credit Union	5%	7%
Post Community Credit Union	4%	5%
Southern Michigan Bank and Trust	4%	5%
United Educational Credit Union	0%	5%
Ally Bank	4%	5%
Federal Home Loan Bank	7%	10%
Federal Farm Credit Bank	14%	19%
Kent County Bonds	7%	10%
Bank of America	7%	0%

Foundation Investments - Investments at Kellogg Community College Foundation are as follows:

	2017		2016	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Mutual funds	\$ 7,345,991	\$ 7,298,954	\$ 6,759,560	\$ 6,253,191
Corporate bonds	74,063	89,814	-	-
Exchange-traded products	-	-	600,052	595,946
Total	\$ 7,420,054	\$ 7,388,768	\$ 7,359,612	\$ 6,849,137

Note 3 - Cash and Investments (Continued)

The Foundation invests in mutual funds with a long-term objective to preserve principal and provide appreciation. Due to the long-term nature of the investments, the Foundation does not limit investment maturities. The Foundation is also not limited to the investing restrictions imposed on the College by state law.

Note 4 - Fair Value Measurements

The college categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The College's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The following tables present information about the College's assets measured at fair value on a recurring basis at June 30, 2017 and 2016 and the valuation techniques used by the College to determine those values.

Assets Measured at Fair Value on a Recurring Basis at June 30, 2017

	Balance at June 30, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Notes and bonds	\$ 1,993,820	\$ -	\$ 1,993,820	\$ -

Assets Measured at Fair Value on a Recurring Basis at June 30, 2016

	Balance at June 30, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Notes and bonds	\$ 2,002,720	\$ -	\$ 2,002,720	\$ -

Note 4 - Fair Value Measurements (Continued)

Investments classified in Level 1 are valued using prices quoted in active markets for those securities. Investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

The Foundation's investments classified as Level 1 are valued quoted prices in active markets for identical assets the Foundation has the ability to access. Investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The following tables represent the Foundation's assets measured at fair value on a recurring basis at June 30, 2017 and 2016.

Assets Measured at Fair Value on a Recurring Basis at June 30, 2017

	Balance at June 30, 2017	Quoted Prices in		
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Mutual funds:				
Equity	\$ 1,540,003	\$ 1,540,003	\$ -	\$ -
Fixed income	1,231,008	1,231,008	-	-
Balanced	4,527,943	4,527,943	-	-
Corporate bonds	89,814	-	89,814	-
Total investments by fair value level	<u>\$ 7,388,768</u>	<u>\$ 7,298,954</u>	<u>\$ 89,814</u>	<u>\$ -</u>

Assets Measured at Fair Value on a Recurring Basis at June 30, 2016

	Balance at June 30, 2016	Quoted Prices in		
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Mutual funds:				
Equity	\$ 1,488,076	\$ 1,488,076	\$ -	\$ -
Fixed income	1,114,175	1,114,175	-	-

Kellogg Community College

Notes to Financial Statements June 30, 2017 and 2016

Note 5 - Accounts Receivable

Accounts receivable consist of the following:

	<u>2017</u>	<u>2016</u>
Student and third party	\$ 4,168,362	\$ 3,853,563
Grants and contracts	1,118,065	2,849,364
State appropriations - Operating	2,257,944	2,275,505
Other	<u>668,951</u>	<u>594,266</u>
Total accounts receivable	8,213,322	9,572,698
Less allowance for uncollectibles	<u>(3,200,000)</u>	<u>(3,025,000)</u>
Net accounts receivable	<u>\$ 5,013,322</u>	<u>\$ 6,547,698</u>

The College values accounts receivable at gross realizable value. All amounts deemed to be uncollectible are charged directly against income in the period that determination is made.

Note 6 - Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Transfers/ Disposals</u>	<u>Ending Balance</u>
Land improvements	\$ 3,057,791	\$ 221,337	\$ (23,753)	\$ 3,255,375
Building and building improvements	76,940,336	2,667,670	(1,555,653)	78,052,353
Furniture, fixtures, and equipment	<u>16,456,332</u>	<u>248,127</u>	<u>(245,445)</u>	<u>16,459,014</u>
Subtotal - Depreciable assets	96,454,459	3,137,134	(1,824,851)	97,766,742
Land	290,602	-	-	290,602
Construction in progress	<u>2,404,358</u>	<u>1,712,435</u>	<u>(2,290,590)</u>	<u>1,826,203</u>
Subtotal - Nondepreciable assets	<u>2,694,960</u>	<u>1,712,435</u>	<u>(2,290,590)</u>	<u>2,116,805</u>
Total	99,149,419	<u>\$ 4,849,569</u>	<u>\$ (4,115,441)</u>	99,883,547
Less accumulated depreciation:

Total	<u>\$ 11,805,053</u>	<u>\$ 11,175,607</u>	<u>\$ 2,413,130</u>	<u>\$ 20,567,530</u>	<u>\$ 2,081,366</u>

Kellogg Community College

Notes to Financial Statements June 30, 2017 and 2016

Note 7 - Long-term Obligations (Continued)

Long-term obligation activity during the year ended June 30, 2016 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Current Portion
Bonds Payable -					
College Building and Site Bonds Series 2014	\$ 8,730,000	\$ -	\$ 995,000	\$ 7,735,000	\$ 995,000
Other Long-term Liabilities					
Accrued retirement and compensated absences	3,565,000	310,000	-	3,875,000	1,400,000
Unamortized bond premium Series 2014	213,232	-	18,179	195,053	18,129
Total	<u>\$ 12,508,232</u>	<u>\$ 310,000</u>	<u>\$ 1,013,179</u>	<u>\$ 11,805,053</u>	<u>\$ 2,413,129</u>

College Building and Site Bonds, Series 2017 - Bonds issued in June 2017 for \$9,375,000. Interest on the bond ranges from 2.00 percent to 3.00 percent and is payable semiannually in April and October. The principal payments range from \$410,000 to \$1,320,000 with the final principal installment of \$1,320,000 due on April 1, 2028. The proceeds from the bonds are expected to be used for capital projects during the period from July 1, 2017 through June 30, 2018.

College Building and Site Bonds, Series 2014 - Bonds issued in March 2014 for \$9,750,000. Interest on the bond ranges from 2.00 percent to 3.00 percent and is payable semiannually in April and October. The principal payments range from \$490,000 to \$995,000 with the final principal installment of \$490,000 due on April 1, 2027. The proceeds from the bonds were used for capital projects.

Total principal and interest maturities on the bond payable as of June 30, 2017 are as follows:

Years Ending June 30	Debt Obligations		
	Principal	Interest	Total
2018	\$ 995,000	\$ 374,465	\$ 1,369,465
2019	1,405,000	414,463	1,819,463
2020	1,415,000	386,362	1,801,362
2021	1,450,000	358,062	1,808,062
2022	1,495,000	320,525	1,815,525
2023-2026	6,275,000	849,988	7,124,988
2027-2028	<u>3,080,000</u>	<u>134,450</u>	<u>3,214,450</u>
Total	<u>\$ 16,115,000</u>	<u>\$ 2,838,315</u>	<u>\$ 18,953,315</u>

Note 7 - Long-term Obligations (Continued)

Accrued Retirement and Compensated Absences - The College provides termination benefits upon departure from the College resulting from unused sick time and years of service and defined by each respective labor contract and administrative policy under the vesting method. Under the vesting method, the liability is accrued for employees based on the amount eligible and certain assumptions are used to determine probability of reaching the criteria required for eligibility. Included in the current portion of the accrual is earned but not used vacation and amounts to be provided to employees that will be retiring in the upcoming fiscal year. Management believes these calculations accurately reflect the College's liability as a result of offering these benefits.

Note 8 - Retirement Plans

Defined Benefit Plan

Plan Description - The College participates in the Michigan Public School Employees' Retirement System (MPERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the College. MPERS provides retirement, survivor, and disability benefits to plan members and their beneficiaries. MPERS also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for MPERS. That is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing, MI 48909-7671.

Contributions - Public Act 300 of 1980, as amended, required the College to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by state statute and may be amended only by action of the state legislature. Under these provisions, each college's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

College contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. The range of rates is as follows:

July 1, 2015 – September 30, 2015	18.76% - 23.07%
October 1, 2015 – September 30, 2016	14.56% - 18.95%
October 1, 2016 – June 30, 2017	15.27% - 19.03%

Note 8 - Retirement Plans (Continued)

Depending on the plan selected, plan member contributions range from 0 percent up to 6.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

The College's required and actual contributions to the plan for the years ended June 30, 2017 and 2016 were \$3,585,329 and \$3,699,005, respectively. Contributions include \$1,179,223 and \$1,132,143 of revenue received from the State of Michigan to fund the MPERS Unfunded Actuarial Accrued Liability (UAAL) stabilization rate for the years ended June 30, 2017 and 2016, respectively. These funds were also remitted to the plan.

Benefits Provided - Benefit provisions of the defined benefit pension plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter. Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction. Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members that do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

Note 8 - Retirement Plans (Continued)

Net Pension Liability, Deferrals, and Pension Expense - At June 30, 2017 and 2016, the College reported a liability of \$38,754,345 and \$38,858,498, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2016 and 2015, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2015 and 2014, respectively, which used updated procedures to roll forward the estimated liability to September 30, 2016 and 2015. The College's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2016, the College's proportion was 0.15533 percent, a decrease of 0.00376 percent from its proportion measured as of September 30, 2015. At September 30, 2015, the College's proportion was 0.15909 percent, a decrease of 0.00332 percent from its proportion measured as of September 30, 2014.

For the years ended June 30, 2017 and 2016, the College recognized pension expense of \$3,328,858 and \$3,119,054 respectively.

The College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 30, 2017	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 482,981	\$ (91,849)
Changes of assumptions	605,894	-
Net difference between projected and actual earnings on pension plan investments	644,097	-
Changes in proportion and differences between college contributions and proportionate share of contributions	2,081	(1,176,518)
College contributions subsequent to the measurement date	<u>2,966,601</u>	<u>-</u>
Total	<u>\$ 4,701,654</u>	<u>\$ (1,268,367)</u>

	June 30, 2016	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ (128,711)
Changes of assumptions	956,779	-
Net difference between projected and actual earnings on pension plan assets	198,341	-
Changes in proportion and differences between college contributions and proportionate share of contributions	2,969	(617,605)
College contributions subsequent to the measurement date	<u>3,100,481</u>	<u>-</u>
Total	<u>\$ 4,258,570</u>	<u>\$ (746,316)</u>

Note 8 - Retirement Plans (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	Amount
June 30	
2018	\$ (60,000)
2019	(110,712)
2020	613,659
2021	23,739
Total	<u>\$ 466,686</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year (2018).

Actuarial Assumptions - The total pension liability as of September 30, 2016 and 2015 is based on the results of an actuarial valuation date of September 30, 2015 and 2014, rolled forward, and was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method	Entry age normal cost actuarial cost method
Assumed rate of return	7.00 percent to 8.00 percent, net of investment fees based on the groups
Rate-of-pay increases	3.50 to 12.30 percent, including wage inflation of 3.50 percent
Mortality basis	RP-2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2025 using projection scale AA

Assumption changes as a result of an experience study for the periods 2007 through 2012 have been adopted by the system for use in the annual pension valuations beginning with the September 30, 2014 valuation.

Discount Rate - The discount rate used to measure the total pension liability was 7.00 to 8.00 percent, depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Note 8 - Retirement Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment Category	September 30, 2016		September 30, 2015	
	Target Allocation Percentage	Long-term Expected Real Rate of Return	Target Allocation Percentage	Long-term Expected Real Rate of Return
Domestic equity pools	28.0%	5.9%	28.0%	4.8%
Private equity pools	18.0%	9.2%	18.0%	8.5%
International equity pools	16.0%	7.2%	16.0%	6.1%
Fixed-income pools	10.5%	0.9%	11.0%	1.5%
Real estate and infrastructure pools	10.0%	4.3%	10.0%	5.3%
Real return, opportunistic, and absolute pools	15.5%	6.0%	16.0%	6.3%
Short-term investment pools	2.0%	0.0%	1.0%	-0.2%
Total	100%		100%	

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the College calculated using the discount rate of 7.00 to 8.00 percent, as well as what the College's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower or 1.00 percentage point higher than the current rate:

	1.00 percent decrease (7.00/6.00 percent)	Current Discount Rate (8.00/7.00 percent)	1.00 percent increase (9.00/8.00 percent)
2017			
Net pension liability	\$ 49,905,842	\$ 38,754,345	\$ 29,352,561
2016			
Net pension liability	\$ 50,098,565	\$ 38,858,498	\$ 29,382,661

Pension Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPERS financial report.

Changes Since Measurement Date - On February 23, 2017, MPERS approved a decrease in the discount rate for the September 30, 2016 annual actuarial valuation by 0.5 percent. The actuarial computed employer contributions and the net pension liability for the measurement period ending September 30, 2017 will increase as a result of this change.

Note 8 - Retirement Plans (Continued)

Payable to the Pension Plan - At June 30, 2017 and 2016, the College reported a payable of \$443,651 and \$418,568 for the outstanding amount of contributions to the pension plan required for the years ended June 30, 2017 and 2016, respectively, consisting of pension contribution payable plus any other amounts owed to the pension plan including the UAAL payments for July and August 2017 and 2016.

Postemployment Benefits Other than Pension (OPEB) - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 20 percent of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate ranged from 2.20 percent to 2.71 percent of covered payroll for the period from October 1, 2014 through September 30, 2015 and from 6.40 percent to 6.83 percent of covered payroll for the period from October 1, 2015 through September 30, 2016 and from 5.69 percent to 5.91 percent of covered payroll for the period from October 1, 2016 through June 30, 2017, dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3.00 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit, or they can elect not to pay the 3.00 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2.00 percent employee contribution into their 457 accounts as of their transition date and create a 2.00 percent employer match into the employees' 403(b) accounts.

The College's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2017, 2016, and 2015 were \$765,952, \$733,554, and \$496,000, respectively.

Defined Contribution Plan

As an alternative pension option, the College offers all full-time faculty and administrative employees the opportunity to participate in the Teachers' Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF). Funding for the plan consists of employer contributions of 10.5 percent and employee contributions of 4.0 percent of covered compensation for the years ended June 30, 2017 and 2016. Benefits vest immediately. Compensation covered under the plan for the years ended June 30, 2017 and 2016 was \$7,222,976 and \$7,143,716, respectively, resulting in contributions of \$767,936 and \$750,071, respectively, for the College and \$290,583 and \$285,749, respectively, for employees.

Note 9 - Tax Abatements

The College receives reduced property tax revenues as a result of Industrial Facilities Tax exemptions (PA 198 of 1974) and Brownfield Redevelopment Agreements granted by cities, villages, and townships within Barry, Branch, Calhoun, Hillsdale, Kalamazoo, and St. Joseph counties that impact the College. Industrial facility exemptions are intended to promote construction of new industrial facilities, or to rehabilitate historical facilities; Brownfield redevelopment agreements are intended to reimburse taxpayers that remediate environmental contamination on their properties.

For the fiscal year ended June 30, 2017, the College's property tax revenues were reduced by \$57,767 under these programs. The College was unable to obtain tax abatement information for the year ended June 30, 2016.

Note 10 - Kellogg Community College Foundation

The Foundation was incorporated in 1998 and was organized to provide support exclusively for the objectives and purposes of Kellogg Community College and to augment the facilities of the College in such a manner as may be designated by its board of trustees. During the years ended June 30, 2017 and 2016, the Foundation made grants and distributions to and on behalf of the College totalling \$391,527 and \$492,375, respectively. If the Foundation was dissolved, its remaining assets would be distributed to the College.

The Foundation's net assets include donor-restricted endowment funds, whose purpose is to provide scholarships to students of the College. Net assets associated with these funds are classified and reported based on the existence or absence of donor- or board-imposed restrictions. Permanently restricted endowment net assets are \$4,116,933 and \$4,192,249 as of June 30, 2017 and 2016, respectively. Excess earnings on the endowments, classified as temporarily restricted, are \$2,499,738 and \$1,538,030 as of June 30, 2017 and 2016, respectively.

Note 11 - Risk Management

The College is exposed to various risks of loss related to property loss, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The College has purchased commercial insurance for property loss, errors and omissions, and medical benefits provided to employees and claims relating to employee injuries. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Note 11 - Risk Management (Continued)

Self Insurance

The College is self insured for health benefits. The College estimates the liability for medical benefit claims that have been incurred through the end of the fiscal year, including both those claims that have been reported as well as those that have not yet been reported. The College has purchased insurance to protect the College for claims in excess of \$35,000.

	<u>2017</u>	<u>2016</u>	<u>2015</u>
Estimated liability - Beginning of year	\$ 150,000	\$ 210,000	\$ 250,000
Estimated claims incurred, including changes in estimates	(1,001,737)	873,593	907,310
Less claim payments	<u>1,036,737</u>	<u>(933,593)</u>	<u>(947,310)</u>
Estimated liability - End of year	<u>\$ 185,000</u>	<u>\$ 150,000</u>	<u>\$ 210,000</u>

Note 12 - Upcoming Pronouncement

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which addresses reporting for governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the College to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the Michigan Public School Employees' Retirement System (MPERS) plan. This statement also enhances required supplementary information (RSI). The College is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the College's financial statements for the year ending June 30, 2018.
