DUAL DEGREE AGREEMENT

KELLOGG COMMUNITY COLLEGE
AND
OLIVET COLLEGE

This document constitutes a formal agreement between Kellogg Community College and Olivet College providing that students completing the academic requirements of the two cooperating institutions will be awarded an Associate of Arts or Science degree from KCC and a Bachelor of Arts degree from Olivet College. Students in this Dual Degree Program may be concurrently enrolled at both institutions while working toward their educational goals. The agreement establishes a plan in which an undergraduate student will typically attend Kellogg Community College for approximately two (2) academic years followed by two (2) academic years of upper-division work at Olivet College.

A. Olivet College will assure acceptance a maximum of sixty-two (62) semester hours of course credit from participating Kellogg Community College graduates (A.A. or A.S.)

B. Olivet College will accept the Associate of Arts and the Associate of Science degree from Kellogg Community College with the nominal provision that the terms of the MACRAO articulation agreement have been satisfied. The student's course work will be treated as a unit, without denying credit for individual classes which may not be offered within the Olivet curriculum and without challenging any passing grades earned during degree completion.

C. Upon recommendation of Kellogg Community College, Olivet College will accept admission to those K.C.C. admitted students interested in pursuing a Bachelor of Arts degree.

D. Olivet College will provide transcript analysis for Kellogg Community College graduates, with identification of general education requirements already met under the MACRAO articulation agreement (to be filed with the College Registrar) and the designation of the major requirements which must be completed by the student interested in a BA degree will be detailed in published transfer equivalency schedules.

E. Olivet College will offer a campus orientation program designed specifically for Kellogg Community College graduates, aimed at acquainting dual degree students with junior/senior year education, Bachelor of Arts Degree course expectations and social activities. This program will be presented in part through the “First Year Experience” course especially designed for the Dual Degree program students (1 semester hour).

F. The student pursuing the Dual Degree program may be jointly enrolled at both institutions. The student will remain on special student standing at Olivet until
requirements at KCC have been met. Special standing will not prevent a student from enrolling in any course at Olivet for which he/she has the pre-requisites.

G. The Dual Degree Program student will be required to complete an Olivet study program consistent with the number of credit hours required of normal juniors and seniors enrolled in specific major programs.

Any special considerations, course exclusions, or specific programs which are not covered by this agreement shall be negotiated directly and authorized by the Chief Academic Officer, in consultation with the department chair, of each institution.
