

Bindery

The image is on the paper but your jobs' not done. Most jobs need “finishing”. Trimming, folding, collating, binding, stitched-booklets or flat. Glued in pads. Printers call it “bindery”.

Print and Document Services has the bindery equipment to complete your job in-house.

Print and Document Services has always shared the concern for environmentally friendly printing practices along with using recycled paper products.

Our PDF workflow enables our clients to send files electronically with minimal errors and greater convenience.
