1. General Policy

   Academic matters such as decision authority or influence in grading, academic requirements, and assessing clinical outcomes are examples of situations that may require reallocation of duties to avoid any actual or perceived reward or disadvantage. Therefore, students who attend the College are precluded from taking classes facilitated by a family member, with a possible exception when the family member is acting as the sole institutional faculty member facilitating the academic activity.

4. Procedure

   a. In the event that the instructor of record is acting as the sole institutional faculty member teaching a course, the faculty must declare the relationship to the respective chairperson/director.

   c. Upon approval by the Instructional Dean, the instructor of record and chairperson/director will collaboratively develop a plan to assure fairness in instruction and evaluation of all students in the course(s) in question.
d. The chairperson/director will twice monitor the approved plan and confirm the plan is being followed. If the chairperson/director reports the plan is not being followed, the Instructional Dean reserves the right to take prompt action. This action could be a corrective return to the plan, could lead to withdrawing the student, or replacing the instructor of record if an actual conflict of interest is perpetuated with regards to the employee and the student who are family members.
